Profile

Software Developer with strong MERN stack expertise and problem-solving skills. Seeking opportunities to build scalable web solutions and contribute to dynamic teams.

Experience

Software Developer Intern | *Pitamaas*

Jan 2025 – July 2025

- Built responsive and interactive web pages using **HTML**, **CSS**, **JavaScript**, enhancing cross-device user experience.
- Developed reusable UI components and animations with **React.js** and **Bootstrap**.
- Collaborated with designers and backend developers to integrate APIs and improve performance.

Full Stack Web Developer | *ACME Migration*

Aug 2025 – Present

- Developed the official website for **ACME Migration**.
- Currently building a comprehensive **CRM system** to streamline client and case management.

Projects

Wanderlust | *Node.js, Express.js, MongoDB, EJS, CSS* |  [GitHub](#)

- Developed an Airbnb-inspired web application for listing and booking accommodations.
- Implemented authentication, property CRUD operations, image uploads, and reviews to replicate Airbnb-like functionality.
- Created dynamic EJS templates with responsive styling for an engaging user interface.

Connect Sphere | *MongoDB, Express.js, React.js, Node.js, WebRTC, Socket.io* |  [GitHub](#)

- Built a real-time video conferencing app supporting room creation, one-to-one and group video calls.
- Integrated **WebRTC** and **Socket.io** for real-time communication and messaging.
- Designed a clean, responsive React interface for seamless virtual meetings.

LinkedIn Clone | *Next.js, Redux, Node.js, Express.js, MongoDB, CSS* |  [GitHub](#)

- Developed a professional networking platform with profile creation, posts, likes, and comments.
- Implemented secure authentication & authorization with JWT and robust Redux state management.
- Added features like resume upload/download, social interactions, and responsive design for improved user engagement.

Skills

Programming Languages: C++, JavaScript, SQL, HTML, CSS

Databases: MongoDB, SQL

Frameworks & Libraries: Node.js, Express.js, EJS, Bootstrap, TailwindCSS, React.js

Developer Tools: Git, GitHub, Docker, Visual Studio Code

Core Competencies: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Education

PCTE Institute of Engineering & Technology

Aug 2021 – July 2025

B.Tech in Computer Science & Engineering, CGPA: 8.59

Ludhiana, Punjab

Certifications

Cybersecurity – On Campus, Mahesh Rakheja

Completed a comprehensive course on Cybersecurity, covering essential principles and practices for securing systems and data.

Full Stack Web Development (MERN) – Apna College

Earned certification in Full Stack Web Development using the MERN stack; gained hands-on experience building web applications and integrating tools.

Achievements

1st Place — SLIET Code Sprint, Chitkara University (Nov 2024)
